Short stretched dodecahedron (12 pentagons, 10 rhombi)

Cut on the solid lines, fold on the dashed lines, glue the grey tabs.
Join the few edges without a tab with tape. Edge = 2.2 cm.

Three-cap dodecahedron (12 pentagons, 15 rhombi, 2 triangles)

Cut on the solid lines, fold on the dashed lines, glue the grey tabs.
Join the few edges without a tab with tape. Edge = 1.8 cm.

Four-cap dodecahedron (12 pentagons, 18 rhombi, 4 triangles)

Cut on the solid lines, fold on the dashed lines, glue the grey tabs.
Join the few edges without a tab with tape. Edge = 1.7 cm.
